Driving excellence through Digital Transformation: Quality 4.0

Objectives, why this symposium

- To enhance understanding and practical application of Quality 4.0 by offering a platform for academicians and practitioners to present original, high-quality technical and scientific papers. This initiative aims to showcase research and practical implementations that demonstrate the transformative potential of Quality 4.0 as a comprehensive system.
- The symposiums is being conducted to foster collaboration by providing a platform for academicians, scholars, and professionals from various organizations to present their technical papers or studies. These events will also offer opportunities for participants to engage and interact with experts from both industry and academia.

Who should attend?

- Academic Professionals/ Professors, Post-Doctoral Fellows, Research Scholars, Students doing their bachelors and masters.
- Working Professionals from all sectors of Economy.
- Paper presenters eager to share their valuable experiences or research on Quality 4.0, along with delegates from the aforementioned fields, are encouraged to exchange knowledge and learn from one another.

Topics for Presentation

ISQ calls for high-standard technical and scientific papers describing research or practical implementation in the field of Q 4.0, involving the advanced use of techniques and tools, as well as formulation of systems and methods.

Academicians can present their thesis or postdoctoral work. Industrial practitioners may present actual case studies backed by a literature review and the skilful use of methods and techniques leading to transformation. Innovative and new methods are also welcome.

Broad areas of Paper Presentation includes:

Applications of Quality 4.0 with

- Artificial Intelligence & Machine Learning
 - Data Science
 - Internet of things

About ISQ

Indian Society for Quality (ISQ) is a not-for-profit society established in 1996 to fill the need for a national forum for interaction among quality professionals, leaders, practitioners and academics. ISQ is a non-partisan, independent body that attracts and invites individual members from business organizations, health care and educational institutions, government agencies and NGOs. Members share their knowledge and learn from each other. ISQ is thus engaged in both creating and disseminating knowledge.

Its mission is to contribute to the thriving of humanity in a healthy planet.

ISQ is well linked to similar national quality bodies in other countries. It is a board member from its very inception and has represented India in the Asian Network for Quality (ANQ). ISQ is a national partner to Quality Sustainability Award promoted by International Academy for Quality. ISQ is the face of India in the world of quality.
